

PUBLIC CALL**FOR PREQUALIFICATION OF EPC+F/EPCF CONTRACTORS**

SBDT (Société des Bauxites de Dabola – Tougué) company established and located in Republic of Guinea (Conakry) intends to call for qualify evaluation of EPC+F/EPCF contractors to participate in an international tendering for transferring Bauxite Ore through pipeline from the mine to the port in Republic of Guinea with the following description:

A) Scope of Work

1. The Bauxite mine engineering design and supply of equipment for the Leguetera mine in Dabola.
2. Engineering design, supply of machinery and construction works of a project for production of 4 million tons bauxite and transferring as slurry through pipeline. Mainly consisted of the following units:
 - 2.1 Primary crushing, storing, grinding units for Bauxite slurry production, required water and electricity supply in Leguetera mine.
 - 2.2 Construction of the slurry transfer pipeline for about 325 km, slurry pump and monitoring stations including supply of required electrical power generator(s).
 - 2.3 Dewatering and filtration of Bauxite slurry Units, covered storage for Bauxite, Bauxite storing and reclaiming systems, conveying system of Bauxite into ship and supply of power generator equipment at the port of Conakry.

B) Project Sites

- Leguetera Mine area located at about 385 km northeast of Conakry city for Bauxite exploitation and slurry production.
- Bauxite transferring pipeline extended from Leguetera mine to the Conakry port about 325 km.
- Port of Conakry for Installation of dewatering and filtration facilities, storing and ship loading systems.

C) Required Documents for Evaluation

- Company profile including projects and engineering design experiences of executed works and other current projects (indicating main scope of work, contract price, date, duration, location and clients name and addresses)
- Company capabilities including technical and financial, engineering, manpower, construction and erection machinery, etc.
- Other relevant information as deem necessary (client confirmation, certification, etc).
- Company (ies) who are interested to take part in the tender individually or as consortium should send the above mentioned information and/or documents by completing the related forms via the official website of MME GmbH not later than April 20, 2018 to the following addresses:

Société des Bauxites de Dabola-Tougué

MME GmbH (HQ Address): Tersteegenstraße. 10, 40474 Düsseldorf, Germany, www.mme-co.de;
info@mme-co.de
